India Logistics Strategy Summit

Planning | Transportation | Warehousing | Technology

The India Logistics Strategy Summit is the meeting place for leaders from the 3PL, freight forwarding, Warehousing, Industrial Spaces, MHE, and technology providers and users of these services to exchange ideas, understand the emerging service landscape and evaluate their strategies to create a sustainable, reliable, resilient, and responsive logistics ecosystem.

Logistics companies - both transportation and warehousing - continue to be challenged by disruptions all across the chain. Surmounting these challenges is not impossible. However, traditional approaches will not work. They need to harness digital technologies, advanced analytics, and a vast pool of data, to home in on services their customers want —so they can deliver an end-to-end offering.

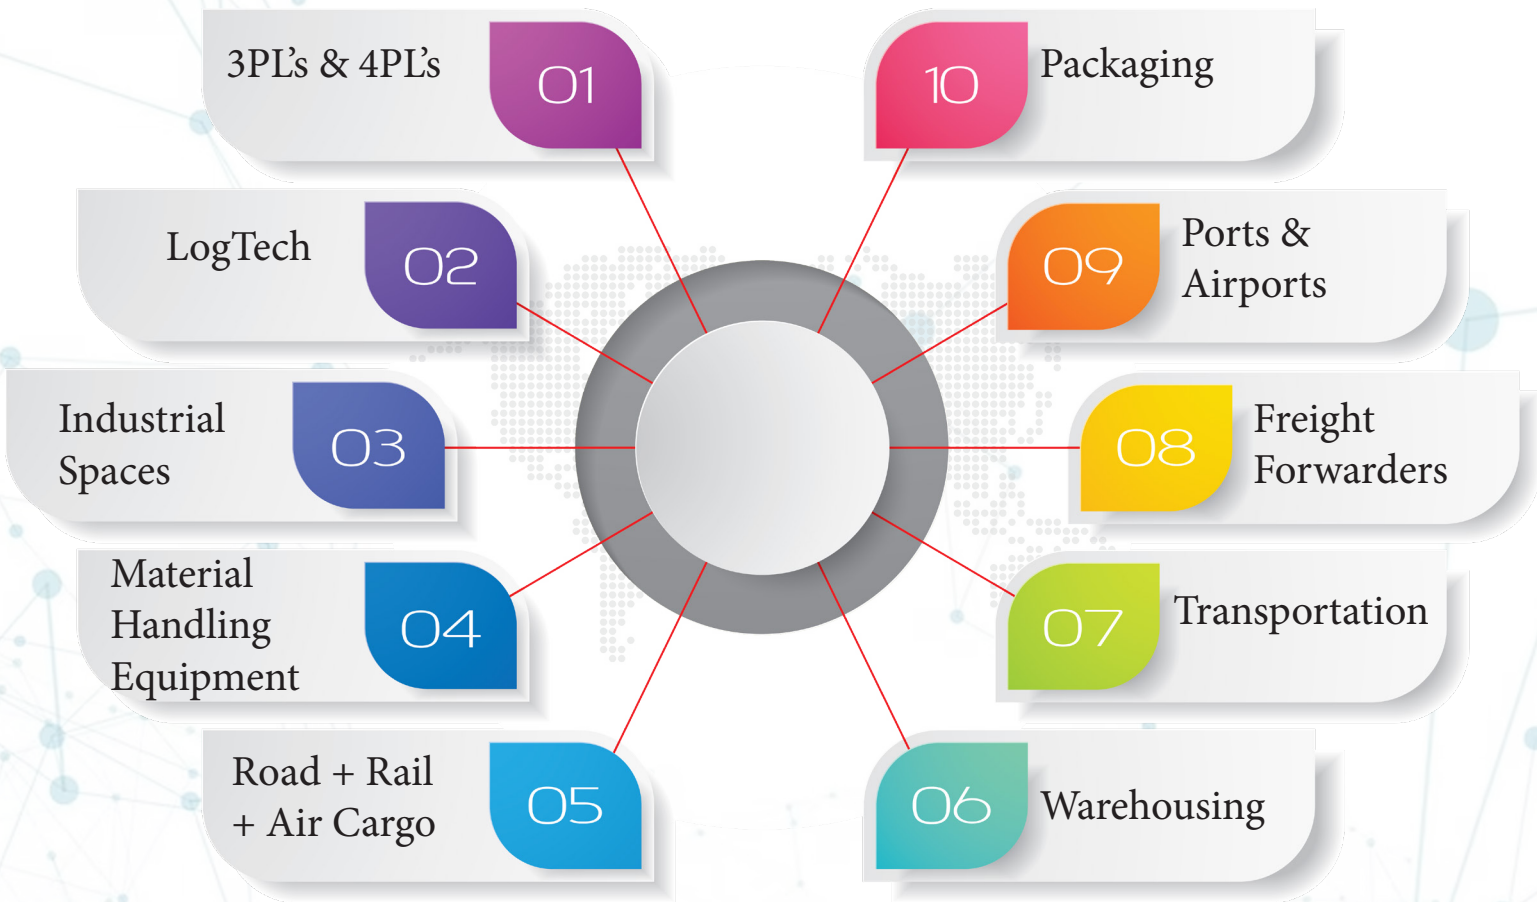

At ILSS, you will hear from thought leaders, peers, and cutting-edge technology providers dedicated to helping you align with the future trajectory of Transportation and Warehousing.

Why Attend

Spend a day gathering cross sector intelligence - we are bringing together the best transportation, warehouse, and supply chain professionals from the entire ecosystem under one roof to share their expertise with you. Our speakers represent the best talent in logistics and warehousing ecosystem. In addition, you get to network with 150 of your peers from across the spectrum, placing you in the greatest gathering of logistics professionals

Industries Participation
